Spring and Summer 2014 Newsletter

Spring has arrived and summer is hopefully on its way. I have held a few workshops in Chilliwack over this winter and have one more lined up for May. As usual I will be moving “shop” for the summer up to the Shuswap area. I have a busy summer ahead as my son Graduates in June (which means I have had to cancel Creative Chaos this year) and my daughter is getting married on July 5th. This will limit the number of workshops I will be able to hold but I have some shorter afternoon ones that I would like to see if there is any interest in. I have also decided to trial an Art Retreat weekend with the information included below.

Also please keep a watch on Fabricartrocks.ca website for updates on markets and shows I will be attending over the summer.
